St. Bartholomew's Church

## Gravestone Transcriptions

From an original document prepared by members of the church in 1973, prior to the removal of the stones.

Reproduced here with the kind permission of the Reverend Janet Heil.

The records here are best used with the accompanying index. If you find a name of interest in the index note the plot and grave numbers and then find the reference in this database. This will show all the occupants of that grave. Although relationships and other details aren't often given, checking the original burial register should give further information.

As with all secondary sources errors can occur.

Please check any findings with the original transcription.
